# Be prepared for heavy rain!

~ Make good use of the Flood Hazard Map It's raining heavily! A typhoon is approaching! What should I do?

# Before that happens, check the following on your flood hazard map:

- Risks of floods (Predicted flood level, etc.)
- · Information about everyday readiness
- Evacuation information
- How to obtain information on floods

# **Preparation and actions for evacuation**

First, evacuate vertically (staying safe indoors)!

Check the flood hazard map. If the predicted flood level is less than 2 meters, and depending on the status of heavy rains and other conditions, stay safe by evacuating to the top floor of your home or another building.

Act quickly and evacuate horizontally (evacuating your home)!

Think about evacuating to the home of a relative or friend, or to an evacuation shelter that will not be flooded, considering the building structure and predicted flood level. Traveling during bad weather is highly dangerous. Act quickly, before the weather gets worse.

# Measures against the coronavirus (COVID-19) in evacuation shelters

Every effort is being made to prevent the 3Cs (closed spaces, crowded places and close-contact settings) at evacuation shelters, including frequent ventilation, disinfecting common-use fixtures such as handrails and doors, and being spread out as much as possible. If you are experiencing any health concerns, such as a fever, please be sure to consult with the staff of the evacuation shelter.

### Sending out of the Notification of the Amount of National Health Insurance Fees

We will be sending out the Notification of the Amount of National Health Insurance Fees for FY2021 to the heads of households on 15 June (Tuesday). Insurance fees for the period from April 2021 to March 2022 will be paid over 10 installments from June 2021 to March 2022. Payment slips for payment by a one-off payment or by periodic installments are enclosed for residents who pay the full or partial amount of insurance fees using payment slips.

\* As the deadline for income tax return filings and the special ward inhabitants' tax and Tokyo inhabitants' tax filings has been extended, in some cases, these details may not yet be reflected in the insurance fee calculations. If your insurance fees change based on the confirmation of your tax return filing, we will send you a notification of your new insurance fees.

[Contact] National Health Insurance Eligibility Subsection, National Health Insurance and Pension Section

### Non-Japanese residents must also enroll in the National Pension System

Foreign residents living in Japan, aged 20 or above and below 60, are legally obligated to enroll in the National Pension System regardless of their nationality. However, this excludes those who are covered under welfare pension schemes, and dependent spouses of those who are covered under welfare pension schemes.

If a foreign resident has fulfilled criteria such as paving National Pension System premiums for 10 years or more, he or she will be eligible to receive benefit payments through the basic pension from age 65 in principle. There is also the basic pension for disability/basic pension for the bereaved, which pay out benefits in the event of disability or death.

There are also countries that have concluded a social security agreement with Japan and established systems to allow citizens to receive pensions based on their pension enrollment period in both countries, in order to prevent duplicate enrollment in two pension schemes.

Foreign residents who have paid for six months or more of their insurance premiums but have not yet reached the qualifying period for receiving the basic pension are eligible to request a lump-sum withdrawal payment within two years of no longer having an address in Japan.

[Contact] For inquiries on enrollment procedures, please contact the National Pension Subsection, National Health Insurance and Pension Section, Suginami City Office. For inquiries on social security agreement and lump-sum withdrawal, please contact the Suginami Branch Office of the Japan Pension Service. Tel: 03-3312-1511

# 大雨に備えよう!

# ~水害ハザードマップの活用 大雨だ!台風が来る! どうしよう…

# そうなる前に 「水害ハザードマップ」で確認!

- ●水害のリスク(予想される浸水の深さ等)
- ●日頃の備えに関する情報
- ●避難に関する情報
- ●水害に関連する情報の入手方法

# 避難準備と行動

### ●まずは垂直避難(屋内安全確保)を!

水害ハザードマップで調べて、予想される浸水の深さが2m未満の場合は、大雨の状況等に応じて、自宅等の上階への避難で安全を確保しましょう。

### ●水平避難(立ち退き避難)は早めの行動を!

家の構造や予想される浸水の深さによって、浸水する恐れのない家族・友人宅への避難や、避難所への避難を検討しましょう。悪天候での移動は大変危険です。天候が悪化する前に早めに行動しましょう。

# 避難所での新型コロナウイルス対策

避難所では、小まめな換気、手すり・ドアなどの共用部分の消毒、施設を最大限に広く活用するなど、可能な限り「密閉・密集・密接」の状態を作らない 運営を行います。なお、発熱等、体調に不安を感じる方は、避難所のスタッフにご相談ください。
